DENIAL OF STATE ENGINEER

This application is hereby denied on the grounds that the granting thereof would violate the provisions of State Engineer's Order No. 832, conflict with existing rights, and threaten to prove detrimental to the public interest.

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set

my hand and the seal of my office,

this 9th day of May, A.D. 2008

Tracy Taylor, P.E.
State Engineer

EXHIBIT A

The applicant recognizes that the State Engineer issued Order #832, Notice of Curtailment of Water Appropriation within the Designated Paradise Valley Ground Water Basin, on December 1, 1983. The language of the order specifically provides:

All applications filed after December 1, 1983, to appropriate underground water to irrigate additional land within the Designated Paradise Valley Ground Water Basin will be denied.

At the time the order was issued, underground water was appropriated for irrigating the lands under Certificate Nos. 4388, 4851, 5340, 5341, 5342, 6542, 8542, 9494, and 9495.

Consistent with the requirements of Order #832, this application though filed after December 1, 1983, does not request appropriation of underground water to irrigate additional lands within the Designated Paradise Valley Ground Water Basin, but rather seeks an appropriation to irrigate lands previously irrigated before December 1, 1983 under the valid Certificates listed above.
